**2018 International Competitions and Assessments for Schools (ICAS) - SCIENCE**

***Dear Principal/Parents:***

The University of New South Wales is offering your students an opportunity to participate in the International Competitions and Assessments for Schools (**ICAS**) for SCIENCE.

**ICAS** has taken place annually in schools for over thirty years and is now in more than 20 countries.

**ICAS:**

- is university backed and internationally recognised assessments.
- is skills based assessments for students in Years 2-12.
- assessments are written by subject specialists and are available in the key learning areas of English, Mathematics and Science.
- reports the performance of your student through a 25-60 minute supervised in-school test. The length of each test depends on the subject and year level being tested. More information about each subject can be found at <http://www.eaa.unsw.edu.au/icas/subjects>
- provides a continuous, independent and comprehensive record of your students' academic strengths and weaknesses and tracks their progress by subject from year 2 to year 12.
- uses other participating students' results as a reference point for comparing your child's performance.
- provides excellent preparation for in-school and national tests.
- contains questions designed specifically to explore the abilities of children at all levels.
- results are available to parents in a hard copy report and online.
- reports indicate which questions were answered correctly and are highly suitable for inclusion in an academic portfolio for future tertiary entrance or when applying for a job.
- rewards the top student in each subject in each year level with a UNSW gold medal.
- recognises all students with certificates of **High Distinction, Distinction, Credit, Merit and Participation**. For more information about awards and recognition go to [www.eaa.unsw.edu.au/icas/awards](http://www.eaa.unsw.edu.au/icas/awards).
